YOUR BUSINESS
IN THE PALM OF YOUR HAND

Dejavoo P5
Mobile POS

Fit Your Brand

Add your logo and branding to terminal transaction screens

Super Fast Transactions

4G and WiFi for fast transactions

Intuitive Design

Snappy interface and easy-to-use navigation.

Powered by the
iPOSPays Gateway

Manage all your payments and terminals from the cloud

The Dejavoo P5 is a lightweight wireless device that's easy to operate single-handedly. Equipped with Bluetooth, WIFI, and 4G, this handheld wireless Android device takes contactless, chip, and pin transactions to the next level.

Powered by the iPOSpays gateway, the beautiful interface simplifies the process of completing basic tasks such as transaction voiding, refunds, pre-authorizations, and more.
